

Genesis

City Seminary | Spring 2017 | Mondays, 6:30-8:00pm

Course Overview:

This course is designed for people who want to know the Bible better and grasp the meaning of Genesis. Genesis is foundational to the Christian story, revealing the nature of God, his purposes in the world, what has gone wrong, and how we fit into God's plan to reconcile all things.

This six-week course will cover the first 26 chapters of Genesis in the Fall and continue into the Spring to cover the remaining 24 chapters of the book. Although taking both courses is ideal, it is not required. This class will help you wrestle with key issues of creation, sin, providence, and mission, as well as address fascinating and important texts found in Genesis.
